FINAL REVISED FEASIBILITY STUDY REPORT (RFS) FOR SITE 70, NAVAL  
WEAPONS STATION, SEAL BEACH, CALIFORNIA, DATED AUGUST, 2005

Dear Ms. Tamashiro:

The Department of Toxic Substances Control (DTSC) has reviewed the Revised Feasibility Study (RFS) Report prepared by GeoSyntec Consultants, for the Department of Navy, Southwest Division, Naval Facilities Engineering Command. The RFS Report was prepared to evaluate a new alternative, enhanced bioremediation, against previous alternatives included in the approved 2002 Feasibility Study, by using regulatory criteria. Based on our review, DTSC concurs with the recommended alternative in the RFS Report.

If you have any questions, please contact Ms. Katherine Leibel at (714) 484-5446.

Sincerely,

Shelia Lowe  
Unit Chief  
Office of Military Facilities  
Southern California Region
